

2016 ASC A92 Aerial Platforms Main Committee

Chairperson: Dave Merrifield
Vice-Chairperson: Frank Bonesteel

A92 Main Committee Scope:

To develop safety guidelines for the design, construction, testing, maintenance, inspection, training, use and operation of elevating and rotating aerial devices, work platforms and vertical devices primarily used to position personnel. However the scope of this committee does not include equipment covered by the following standards:

- ASME A17 Safety Code for Elevators, Dumb-waiters, Escalators and Moving Walks
- ASME B30 Safety Standards for Cableways, Cranes, Derricks, Hoists, Hooks, Jacks and Slings
- ITSDF B56 Powered and Non-powered Industrial Trucks
- A10.8 Safety Requirements for Scaffolding
- A14 Safety in the Construction, Care and Use of Ladders
- A120 Powered Platforms (Scaffolds) Used for Window Cleaning
- NFPA 1904 Testing Fire Department Aerial Ladders and Elevating Platforms

A92 Secretariat: The SAIA serves as the Secretariat.

About: The Scaffold & Access Industry Association (SAIA) is a non-profit trade 501(c)(6) association committed to raising the standards of professionalism within the scaffold and access industry. The SAIA represents all facets of the scaffold & access industry through various councils that include, aerial work platform, construction hoist, fall protection equipment, international, industrial, mast climbing, plank and platform, shoring, supported scaffold and suspended scaffold. Through its various programs, the SAIA promotes safety, training and a highly professional, responsible image of the scaffold and access professional. The SAIA delivers thousands of safety training programs a year at various locations throughout the world. These programs cover all aspects of scaffold and access safety and equipment use. The SAIA is also the secretariat for the American National Standard, SAIA ASC A92 standards.
